

The following exterior features of the North Side Boat Club, 200 South Front Street, are among those protected by City Ordinance No. 9089 approved October 17, 2006:

1. Brick construction on east, north, and south.
2. Limestone foundation and limestone water table.
3. Shaped parapets with reversed curves on front (east) façade.
4. Tower with metal pyramidal roof and miniature balconies on east and south.
5. Wall dormers with miniature arched wooden windows in tower roof.
6. Wooden windows in both front façade and tower with diamond-patterned upper sash and single-pane lower sash.
7. Wooden windows in south and north facades with six-over-one sash.
8. East entry canopy with metal roof.
9. East entry door surround.
10. Name plate and date plate over east entrance.
