Independent Auditor's Report

The Honorable Mayor and City Council City of Quincy, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Quincy, Illinois (the City) as of and for the year ended April 30, 2012, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and aggregate remaining fund information of the City of Quincy, Illinois, as of April 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated November 9, 2012, on our consideration of the City of Quincy, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedules of funding progress on pages 3 through 12 and 56 through 64 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Independent Auditor's Report (Concluded)

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133. Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The Quincy Transit Lines reports are presented for purposes of additional analysis as required by the Illinois Department of Transportation, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards and the Quincy Transit Lines reports are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

November 9, 2012 Quincy, Illinois Management's Discussion and Analysis

City of Quincy, Illinois Management's Discussion and Analysis For the Fiscal Year Ended April 30, 2012 (Unaudited)

The discussion and analysis of the City of Quincy, Illinois is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the City's financial activity, (3) identify changes in the City's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget) and, (5) identify individual fund issues and concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, it should be read in conjunction with the City's financial statements.

Overview of the Financial Statements

The discussion and analysis serves as an introduction to the City of Quincy's basic financial statements. The City of Quincy's basic financial statements are comprised of three components: government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Quincy's finances. The Statement of Net Assets represents information on all of the City of Quincy's assets and liabilities with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Quincy is improving or deteriorating. Other nonfinancial factors should also be taken into consideration, such as changes in the City's property tax base and the condition of the City's infrastructure to assess the overall health or financial condition of the City. The Statement of Activities presents information showing how the City's net assets changed during the most recent fiscal year.

In the Statement of Net Assets and the Statement of Activities, the City is divided into two kinds of activities:

- Governmental Activities Most of the City's basic services are reported here, including the police and fire departments, public works, engineering and administration. Property taxes, sales taxes and franchise fees finance most of these activities.
- Business-type Activities The City's water and sewer system are reported here. The City charges a fee to customers to help it cover all or most of the cost of operation, including depreciation.

Reporting the City's Most Significant Funds

Fund Financial Statements

The Governmental Major Fund presentation is presented on a sources and uses of liquid resources basis. This is the manner in which the financial plan (the budget) is typically developed. The flow and availability of liquid resources is a clear and appropriate focus of any analysis of a government. Funds are established for various purposes and the Fund Financial Statements allow the demonstration of sources and uses and/or budgeting compliance associated therewith.

The Fund Financial Statements also allow the government to address its Fiduciary Funds (Police and Fire Pensions). While these funds represent trust responsibilities of the government, these assets are restricted in purpose and do not represent discretionary assets of the government. Therefore, these assets are not presented as part of the Government-Wide Financial Statements.

While the Total column on the Business-type Fund Financial Statements is the same as the Business-type column in the Government-Wide Financial Statements, the Governmental Fund Financial Statements require reconciliation because of different measurement focus (current financial resources versus total economic resources). The flow of current financial resources will reflect bonds proceeds and interfund transfers as other financial sources as well as capital expenditures and bond principal payments as expenditures. The reconciliation will eliminate these

transactions and incorporate the capital assets and long-term obligations into the Governmental Activities column in the Government-Wide statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information. Budgetary comparisons for the major governmental funds and the Schedule of Funding Progress for the pension plans are presented immediately following the notes to financial statements.

The City as a Whole - Government-Wide Financial Analysis

The City's combined net assets were \$137.2 million as of April 30, 2012. Analyzing the net assets and net income of governmental and business-type activities separately, the business type activities net assets are \$78.5 million.

By far the largest portion of the City's net assets (87.3 percent) reflects its investment in capital assets (e.g., property, plant and equipment net of depreciation); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1 Summary of Net Assets at April 30, 2012 and 2011 (in millions)

City of Quincy, Illinois Management's Discussion and Analysis For the Fiscal Year Ended April 30, 2012 (Unaudited)

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Assets summary presentation:

Net Results of Activities - which will impact (increase/decrease) current assets and unrestricted net assets.

Borrowing for Capital – which will increase current assets and long-term debt.

Spending Borrowed Proceeds on New Capital – which will reduce current assets and increase capital assets. There is a second impact, an increase in invested in capital assets and an increase in related net debt which will not change the invested in capital assets, net of debt.

Spending of Non-borrowed Current Assets on New Capital – which will (a) reduce current assets and increase capital assets and (b) will reduce unrestricted net assets and increase invested in capital assets, net of debt.

Principal Payment on Debt – which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net assets and increase invested in capital assets, net of debt.

Reduction of Capital Assets through Depreciation – which will reduce capital assets and invested in capital assets, net of debt.

Current Year Impacts

After a number of years of little or no increase in Liability and Workers Compensation premiums, in FY2012 the City saw the need to increase the amounts charged to departments for the second year in a row. The premium paid by the City increased by 19.5%, or \$316,000, in FY2012. In addition, Health Insurance Premiums increased by 8%.

Payments to the Police and Fire Pension funds increased once again in 2012. Payments to the Fire Pension fund increased by \$121,000, or 5.2%, on top of last year's increase of \$416,000 while payments for the Police Pension fund increased \$162,000, or 9.4%, after 2011's increase of \$246,000.

The following chart shows the revenue and expenses of the governmental and business-type activities:

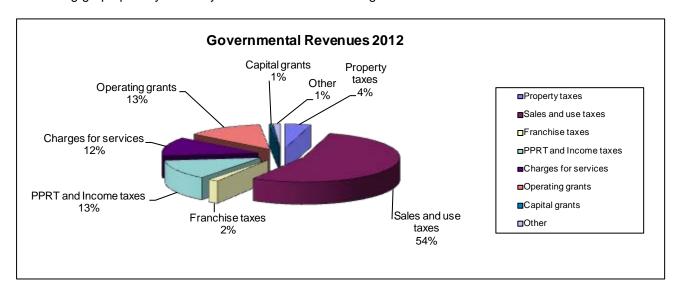

Table 2 Changes in Net Assets (in millions)

Increase (decrease)													
in net assets	\$	(0.9)	\$	(2.1)	\$	0.9	\$	1.2	\$	-	\$	(0.9)	
Net Assets at beginning of year		59.6		61.7		77.6		76.4		137.2		138.1	
Net Assets at end of year	\$	58.7	\$	59.6	\$	78.5	\$	77.6	\$	137.2	\$	137.2	

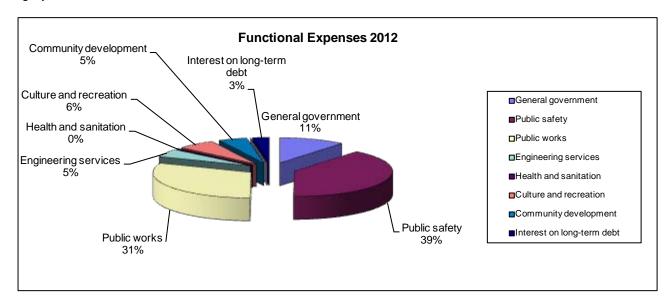

The City's combined change in net assets in fiscal year 2011/2012 was a decrease of less than \$0.1 million compared to the decrease of \$0.9 million in fiscal year 2010/2011. The City's total revenues increased in 2012 by \$1.3 million to \$50.8 million. Of this amount, the Governmental revenues increased by \$1.2 million while Business-type revenues increased by \$0.1 million.

The cost of all City programs increased by \$0.4 million with the Business-type costs increasing by the same \$0.4 million. In Governmental Activities expenses, Public Safety expenses increased by \$1.5 million while General Government decreased \$1.8 million in FY2012.

The following graph portrays the City's revenue sources for its governmental revenues:

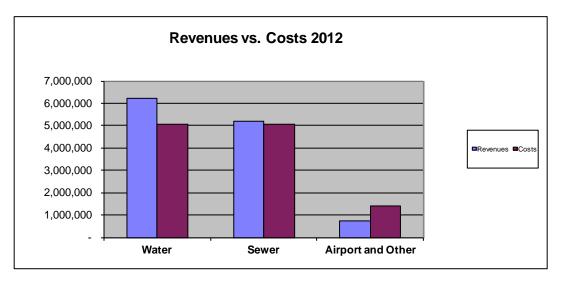

The following graph depicts the different expense categories and the percentage of resources provided for each category:

Business-type Activities

The following graph depicts the revenues versus the costs for each department of the business-type activities:

Normal Impacts

Revenues:

Economic Condition – which can reflect a declining, stable or growing economic environment and has a substantial impact on state income and sales tax revenue as well as public spending habits for building permits, elective user fees and volumes of consumption.

Increase/Decrease in City approved rates – while certain tax rates are set by statute, the City Council has significant authority to impose and periodically increase/decrease rates (water, wastewater, building fees, home rule sales tax, etc.)

Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring) – certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and are often distorting in their impact on year-to-year comparisons.

Market Impacts on Investment income – the City's investment portfolio is managed using rotating short-term maturities resulting in less fluctuation in investment income.

City of Quincy, Illinois Management's Discussion and Analysis For the Fiscal Year Ended April 30, 2012 (Unaudited)

Expenses:

Introduction of New Programs – within the functional expense categories (Public Safety, Public Works, General Government, etc.) individual programs may be added or deleted to meet changing community needs.

Increase in Authorized Personnel – changes in service demand may cause the City Council to increase/decrease authorized staffing.

Salary Increases (annual adjustments) – of the City's six organized bargaining units, four are prohibited from work stoppage and, therefore, are subject to arbitration.

Inflation – while overall inflation appears to be reasonably modest, the City is a major consumer of certain commodities such as supplies, fuel and parts. Some functions may experience unusual commodity-specific increases.

Current Year Impacts

Revenues:

For the fiscal year ended April 30, 2012, revenues from governmental activities totaled \$38.7 million, an increase of \$1.2 million from fiscal 2011. Most significant of the revenue changes was an increase of \$1.2 million in operating grants and contributions.

Intergovernmental revenues (shared state and local sales tax, replacement tax, and income tax) continue to be the City's largest revenue sources, combining for a total of \$26.7 million, or 69%, of all Governmental Activities revenues for fiscal year 2012.

Business-type Activities saw an increase of \$0.1 million in charges for services from the previous fiscal year. However, capital grants and contributions to Business-type Activities decreased by \$0.4 million.

Expenses:

For the fiscal year ended April 30, 2012, expenditures for governmental activities totaled \$39.3 million with no increase of decrease from the prior year.

Expenses for Business-type activities increased by \$0.4 million.

For Governmental Activities the \$38.7 million in revenues was offset by \$39.3 million in expenses resulting in a reduction in net assets of \$0.6 million before transfers. For Business-type Activities, revenues of \$12.1 million were offset by \$11.5 million in expenses for an increase in net assets of \$0.6 million before transfers.

The City's Funds

At the close of the City's fiscal year on April 30, 2012, the governmental funds of the City reported a combined fund balance of \$18.0 million. This is a decrease of 22.7%, or \$5.3 million from last year's combined fund balance of \$23.3 million. The ending balance includes a decrease in fund balance of \$1.0 million in the City's General Fund. In addition, these other changes in fund balances should be noted:

- The 2009 G/O Hydro Project Fund had a decrease in fund balance of \$3.0 million. This fund is used to account for the bond proceeds and related costs for the Hydroelectric project. This decrease is due using the remaining bond proceeds to pay down the bond.
- The 2009C G/O Library Project Fund had a decrease in fund balance of \$1.8 million for the year ended April 30, 2012. This fund is used to account for the bond proceeds and related costs of the construction and renovation of the Quincy Public Library, a component unit of the City of Quincy. The decrease is due to the spending of prior year unspent debt proceeds.

General Fund Budgeting Highlights

For fiscal year ending April 30, 2012, actual expenditures on a budgetary basis were \$27.6 million compared to the budget amount of \$29.0 million. The \$1.4 million variance was due to spending less than budgeted in various areas, especially police, fire and building maintenance. The largest variances were in the police department of \$0.2 million and the fire department of \$0.2 million.

The City's actual amounts available for appropriation on a budgetary basis were \$30.8 million as compared to the budget amount of \$30.1 million. This resulted in a variance of \$0.7 million. Much of this variance is due to the budgeting of intergovernmental revenues of \$21.8 million and receiving \$22.8 million due to late payments received by the State of Illinois in this fiscal year from the prior year.

Capital Assets

At the end of the fiscal year, the City had \$124.5 million invested in its funds for capital assets. This amount represents a decrease of \$3.8 million or 3.0%. \$2.5 million of this decrease occurred in the governmental-type activities due to current year depreciation exceeding current year additions.

Table 3

GOB 2009B	1,245,000	1,245,000
GOB 2009C	5,533,000	 5,400,000
Total	\$ 29,456,818	\$ 18,187,529

Economic Factors

The City of Quincy serves as an economic hub for West Central Illinois. The presence of health care providers and retail shopping in our city creates a regional draw. This also provides a significant level of employment in our area. The City's unemployment rate in April was 5.9% compared to 6.6% at the same time last year. Sales tax revenues were up 2.24% over last year which shows some recovery from the recent recession. In addition, new construction growth remained steady with 62 permits issued in FY2012 valued at \$18 million compared to 57 permits issued in FY2011 valued at \$16.6 million. The City's EAV increased by 1% for tax year 2011 to a total of \$564,491,890.

City of Quincy, Illinois Management's Discussion and Analysis For the Fiscal Year Ended April 30, 2012 (Unaudited)

Contacting the City's Financial Management

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional information, contact Ann Scott, City Comptroller, City of Quincy, 730 Maine St., Quincy, Illinois 62301-4056.

Basic Financial Statements

Government-wide financial statements display information about the government as a whole, except for its fiduciary activities. The statements include separate columns for the governmental and business-type activities of the primary government as well as for its component units.

Fund financial statements for the City's governmental, proprietary, and fiduciary funds are presented after the government-wide statements. These statements display information about major funds individually and Non-Major funds in the aggregate for governmental and enterprise funds. Fiduciary statements include financial information for fiduciary funds and similar component units.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Funds to the Statement of Activities

For the Year Ended April 30, 2012

Net change in fund balances - total governmental funds	\$ (5,273,132)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures. However, in the governmental-wide statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation and disposals in the current period.	(2,389,200)
The issuance of long-term debt (e.g. bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance cost, premiums, discounts, and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. In the statement of activities, interest is accrued on outstanding bonds, whereas in the governmental funds, an interest expenditure is reported when due. This amount is the net effect of these differences in the treatment of long-term debt and related items.	7,632,093
Compensated absences do not require the use of current financial resources, as they are considered long-term liabilities. Therefore, the change in compensated absences liability is not included as an expenditure in governmental funds.	(3,308)
Internal service funds are used by management to charge costs of certain activities, such as insurance, to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.	(994,779)
Some expenses reported in the statement of net activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	193,067
Change in net assets of governmental activities	\$ (835,259)

Notes to the Financial Statements

1) Summary of Significant Accounting Policies

The City of Quincy, Illinois (City) was incorporated in 1840. The City is a home rule city under Illinois law and operates under the Council/Mayor form of government. The City provides a variety of general government services to residents including law enforcement, fire protection, public works, cemetery, airport services, public health and welfare, community development, waterworks and sanitation.

A. Financial Reporting Entity

The accounting and reporting policies of the City relating to the funds and account groups included in the accompanying combined financial statements conform to generally accepted accounting principles applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the City are described below.

The City's combined financial statements include the accounts of all City operations. The criteria for including organizations as component units within the City's reporting entity, as set forth in Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- The organization is legally separate (can sue and be sued in their own name)
- The City holds the corporate powers of the organization
- The City appoints a voting majority of the organization's board
- The City is able to impose its will on the organization
- The organization has the potential to impose a financial benefit/burden on the City
- There is a fiscal dependency by the organization on the City

Based on the aforementioned criteria, the City has determined that the Quincy Public Library, the 911 System and Woodland Cemetery are component units of the City of Quincy, Illinois. Financial information on the 911 System has been blended within the City's reporting entity. Information for the Quincy Public Library and Woodland Cemetery has been discretely presented. Complete financial statements for the library and cemetery may be obtained from the respective entities.

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The focus is on both the City as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds (by fund type), and the component units. Both the government-wide and the fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type activities. In the government-wide Statement of Net Assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Each presentation provides valuable information for enhanced analysis and comparability.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, culture and recreation, etc.) that are otherwise being supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, culture and recreation, etc.) or business-type activity.

1) Summary of Significant Accounting Policies (Continued)

B. Government-wide and Fund Financial Statements (Continued)

Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported as general revenues. The operating grants column includes operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants and contributions.

In the fund financial statements, financial transactions and accounts of the City are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The fund statements are presented on a current financial resource or modified accrual basis of accounting. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

The City's fiduciary funds are presented in the fund financial statements. Since, by definition, these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The following is a brief description of the specific funds used by the City.

1. Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used; current liabilities are assigned to the fund form which they are paid; and the difference between governmental fund assets and liabilities, the fund equity, is referred to as "fund balance". The measurement focus is on determination of changes in financial position, rather than on income determination. The following are the City's major governmental funds:

General Fund

The General Fund is the main operating fund of the City. It is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvements that are not paid through other funds are paid from the General Fund.

State and Federal Grants Fund

The State and Federal Grants Fund is used to account for the various community development and housing grants received from the Federal and State government.

Quincy Transit Lines Fund

The Quincy Transit Lines Fund is used to account for the activities of the City's public transit system. The majority of this fund's resources come from state and federal grants and allocations.

1) Summary of Significant Accounting Policies (Continued)

B. Government-wide and Fund Financial Statements (Continued)

1. Governmental Funds (Concluded)

Capital Projects Fund

The Capital Projects Fund accounts for the acquisition or construction of capital projects not included in other Capital Project funds.

2009 G/O Hydro Project Fund

This capital project fund is used to account for the acquisition and/or construction of capital facilities for the ongoing Hydro-Electric Project.

The other governmental funds of the City are considered non-major and are as follows:

Special Revenue Funds – used to account for the proceeds of specific revenue resources (other than assessments, expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes. These funds include: 911 System, Motor Fuel Tax, Town Road Tax, Police Contributions, Fire Contributions, Franchise Fee "Green", Tourism Tax, and the City's Revolving Loan funds. These loan funds include the Economic Development Revolving Loan Fund, which was established from an Urban Development Action Grant (UDAG); the Community Development Action Program (CDAP) Revolving Loan Fund; the Central Business District Loan Fund; the Neighborhood Housing Rehab Loan Fund; and the Energy Grant Loan Fund.

Capital Project Funds – used to account for the acquisition and construction of capital facilities other than those being financed by proprietary funds. The Capital Projects Funds use General Obligation or Certificates of Obligation Bonds proceeds, grants, or transfers from other funds. These funds include Sanitation Connection, TIF #2, TIF #3, 2009 OLC Capital Projects, 2009C G/O Library Project, Sewer Equipment Replacement, QMEA Cap Reserve, and Fire Equipment Improvement.

Debt Service Funds – used to account for the accumulation of financial resources for the payment of principal, interest and related costs on general long-term debt primarily from taxes levied by the City. The fund balances of the Debt Service Funds are reserved to signify the amounts that are restricted exclusively for debt service expenditures.

2. Proprietary Funds

Enterprise Funds

Enterprise Funds are used to account for those operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, costs incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The City's major Enterprise Funds consist of the following funds:

Water Fund – used to account for the operation of the City's water treatment facilities and services.

Sewer Fund – used to account for the operation of the City's waste disposal activities.

B. Government-wide and Fund Financial Statements (Continued)

2. Proprietary Funds (Concluded)

Quincy Regional Airport Fund – used to account for the operation of the City's airport.

Firefighters Regional Training Center – used to account for the operation of the fire training center

The other enterprise fund of the City, Quincy Regional Dock, is considered non-major.

Internal Service Funds

Internal Service Funds account for the financing of goods or services provided by such departments to other departments or agencies of the City on a cost-reimbursement basis. The City's Internal Service Funds include Self Insurance, Central Services, Central Garage, Health Insurance Fund and Unemployment Compensation Fund. These funds are included in the governmental activities for government-wide reporting purposes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The excess revenue or expenses for the funds are allocated to the appropriate functional activity.

3. Fiduciary Funds

Fiduciary Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. Fiduciary funds are not included in the government-wide financial statements. The Fiduciary Funds of the City are as follows:

Pension Trust Funds

The Pension Trust Funds are accounted for in the same manner as the proprietary funds, using the same measurement focus and basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. The Pension Trust Funds account for the assets of the City's Police and Fire pension plans.

Police Pension Fund – used to account for the accumulation of resources needed to pay pension costs when due. Resources are contributions from police force members at rates fixed by state statutes and City contributions in the form of an annual property tax levy.

Fire Pension Fund – used to account for the accumulation of resources needed to pay pension costs when due. Resources are contributions from fire department members at rates fixed by state statutes and City contributions in the form of an annual property tax levy.

Private Purpose Trust Funds

Private Purpose Trust Funds are used to accumulate assets for other purposes. These funds consist of the Learn Not to Burn Fund, the Sister City Commission Fund, the Stay Alive House Fund, the Lincoln Bicentennial Commission, the Human Rights Commission, and the City Tree Board.

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet in the funds' statements. Long-term assets and long-term liabilities are included in the government-wide statements. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of revenues. First, monies must be expended on the specific purpose or project before any amounts will be paid to the City. Therefore, revenues are recognized based upon the expenditures recorded and the availability criteria. Second, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

Licenses and permits, fines and forfeitures, charges for sales and services (other than utilities), and miscellaneous revenues are generally recorded as revenue when received in cash, because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are measurable and available.

Property taxes are recognized as a receivable at the time they are levied, and the current taxes receivable represents an estimate of the 2011 levy. Property taxes are levied each year on all taxable real property in the City. The City passes a property tax levy ordinance, usually in the fourth calendar quarter of each year, for the fiscal year beginning on May 1 of such calendar year. The tax becomes a lien as of the following January 1, on the assessed value listed as of the day prior (December 31) for all real property located in the City. In the year following the levy, the County bills the property taxes in two installments, generally in May and August. The taxes become delinquent approximately 40 days after the dates billed. The County collects the taxes and remits them to the City. The City receives these remittances approximately one month after the collections' dates.

In the government-wide statement of net assets and statement of activities, all proprietary funds and pension trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these activities are either included on the statement of net assets or on the statement of fiduciary net assets.

The statement of net assets, statements of activities, financial statements of the Proprietary Funds and Fiduciary Funds are presented on the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash. Property taxes are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connections with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Cash and Cash Equivalents

Except where otherwise required, the City maintains all deposits in a bank account in the name of the City. These deposits are invested on a short-term basis with interest income being allocated to the funds based on their respective balances.

E. Investments

Investments are reported at fair value. Securities traded on the national or international exchange are valued at the last reported sales price at current exchange rates. Investments are reported in the Police and Fire Pension funds.

F. Statement of Cash Flows

For purposes of the Statement of Cash Flows for the proprietary fund type funds, all highly liquid investments (including restricted assets) with maturity of three months or less when purchased are considered to be cash equivalents.

G. Accounts Receivable

Accounts receivable result primarily from services provided to citizens and are accounted for in various funds. Water services are accounted for in the Water Fund and sewer and airport services are accounted for in the Sewer Fund and Quincy Regional Airport Fund. Accounts receivable are shown net of an allowance for uncollectible accounts.

H. Inventories

Inventories consist of consumable supplies and are valued at cost using the first in-first out (FIFO) method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased.

I. Capital Assets

Capital assets including land, buildings, improvements, equipment assets and infrastructure are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an initial useful life of one year or greater.

Assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the assets are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation has been provided using the straight-line method over the estimated useful lives of the respective assets. The estimated useful lives for each capital asset type are as follows:

Systems and Improvements 20 - 100 years Buildings 15 - 100 years Machinery and Equipment 5 - 40 years Office Equipment 5 - 10 years Vehicles 5 - 15 years

The City's collections of works of art, library books, and other similar assets are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to City policy that requires proceeds from the sale of these items to be used to acquire other collection items.

J. Deferred and Unearned Revenue

In the governmental funds, deferred revenues represent amounts due, which are measurable, but not available. In the statement of net assets, deferred revenues represent the deferral of property tax receivables which are levied for a future period.

Unearned revenue represents grants and similar items received, however, the City has not met all eligibility requirements imposed by the provider.

K. Interfund Transactions

Transactions among City funds that would be treated as revenues and expenditures or expenses if they involved organizations external to the City government are accounted for as revenues and expenditures or expenses in the funds involved.

Transactions which constitute reimbursements to a fund for expenditures initially made from it, which are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the reimbursed fund. Transactions which constitute the transfer of resources from a fund receiving revenues to a fund through which the revenues are to be expended, are separately reported in the respective fund's operating statements. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

Non-current portions of long-term interfund loan receivables are reported as advances within the governmental funds and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation.

L. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused compensatory benefits. For proprietary fund types, these accumulations are recorded as expenses and liabilities of the appropriate fund in the fiscal year earned. For governmental fund types, the amount of accumulated unpaid vacation which is payable from available resources is recorded as a liability of the respective fund only if they have matured, for example, as a result of employee retirements and resignations.

Sick leave and other benefits are accumulative as far as time available and are reimbursable to employees upon termination, in full or in part. The costs of these benefits are recognized when paid to active employees.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets invested in capital assets, net of related debt, excludes unspent debt proceeds. Net assets are reported as restricted when there are limitations imposed on their use through enabling legislation of through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The City first applied restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

N. Fund Balances

As of these financial statements, the City has adopted GASB Statement No. 54, which redefined how fund balances of the governmental funds are presented in the financial statements. Fund balances are classified as follows:

Nonspendable- This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The City had no nonspendable fund balances as of April 30, 2012.

Restricted- This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or law or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The City had \$10,977,412 in restricted fund balances that consisted of various funds.

Committed- This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council. These amounts cannot be used for any other purpose unless the Council removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The City had no committed fund balances as of April 30, 2012.

Assigned- This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the City Council through budgetary process. The City had assigned resources of \$89,253 as of April 30, 2012.

Unassigned- All amounts not included in other spendable classifications.

Beginning fund balances for the City's governmental funds have been restated to reflect the above classifications.

The City's policy is to use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise.

O. Bond Premium and Issuance Costs

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net assets. Bond premiums, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. In the fund financial statements, governmental fund types recognize bond premiums, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as an other financing source. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

P. Properties Held for Resale

Properties acquired through the Community Development Program are recorded at the lower of cost or fair value. Therefore, costs incurred which are not recoverable upon resale and permanent declines in fair value are charged to expense/expenditures.

Q. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the general purpose financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2) Budgets and Budgetary Accounting

The fiscal year of the City of Quincy, Illinois has been established as the twelve-month period beginning on May 1. The Mayor submits a budget of estimated expenditures and revenues to the City Council. State law requires that a public hearing on the proposed budget be held at least 10 days prior to passage to obtain taxpayer comments. The budget is required to be legally adopted through passage of an ordinance prior to May 1.

The City Council is authorized to transfer budgeted amounts within departments. The budget is changed by line item transfers or supplemental appropriations. Formal budgetary integrations are employed as a management controls device during the year for the General Fund, Special Revenue Funds, Capital Projects Funds and Debt Service Funds.

The budget is prepared using the cash basis of accounting. Individual fund statements have been reconciled from the modified accrual basis of accounting to the cash basis of accounting for comparative purposes. Budgeted amounts are as originally adopted, or as amended by the City Council. Individual amendments were not material in relation to the original appropriations, which were adopted.

3) Deposits and Investments

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The City follows a policy of required collateralization of all deposits in excess of federally insured amounts. At April 30, 2012, the carrying amount of the City's deposits (excluding component units) was \$32,796,947 and the respective bank balances totaled \$33,598,494. Included in the bank balances are Certificates of Deposit totaling \$19,360,000. The insured and collateral status of the bank balances, by category risk, was as follows:

		Filliary		
	Government			
FDIC Insured	\$	11,710,714		
Collateralized with securities held by the				
pledging financial institution's trust				
department or agent in the City's name		17,977,622		
Invested in Money Market Funds		3,571,999		
Invested in Illinois Funds		338,159		
	\$	33,598,494		

Drimary

Investments

State statutes and City ordinances authorize the City's investments. The City is authorized to invest in U.S. Government obligations and its agencies or instrumentalities (excluding collateralized mortgage obligations, or CMO's; Real Estate Mortgage Investment Conduits, or REMIC's; or other principal or interest only obligations), obligations of any state or a political subdivision of any state (pension funds), money market funds registered under the Investment Company Act of 1940, repurchase agreements, insured or collateralized certificates of deposit and money market funds. Pension fund investments are authorized by state statute and include, in addition to the previously mentioned investments, marketable equity securities.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy generally limits the maturities of investments to no more than three years from the date of purchase. Reserves for capital improvement projects are limited to the expected use of the funds or a maximum of five years from the date of purchase. State statute places additional maturity limits on specific investment vehicles. Investments in short term obligations of corporations are limited to 180 days from the date of purchase and repurchase agreements are limited to periods of 330 days or less.

Credit Risk

State law limits investments in commercial paper and corporate bonds to the top three ratings issued by at least two standard rating services. The City limits pension fund investments in individual issues to a maximum of 10% of the pension fund's net assets.

Investments available for sale are recorded in the Firefighters' and Police Pension Funds. The investments are held by the Firefighters' and Police Pension Funds and are actively managed by Mercantile Trust Department and First Bankers Trust Department, respectively.

3) Deposits and Investments (Concluded)

Investments shown in the Fiduciary Funds – Pension Trusts are as follows:

	,	Amortized Cost	Fair Value
Investments Available for Sale:			
U.S. Government Agencies	\$	27,084,496	\$ 27,836,331
Mutual Funds		3,276,929	3,340,605
Common and Preferred Stocks		16,051,811	17,534,997
	\$	46,413,236	\$ 48,711,933
Investment Maturities (in years):

	\$	1,207,362	\$	(157,236)	\$	1,050,126

General Obligation Bonds are direct obligations issued on a pledge on the general taxing power for the payment of the debt obligations of the City. General Obligation Bonds require the City to compute, at the time other taxes are levied, the rate of tax required to provide (in each year bonds are outstanding) a fund to pay interest and principal at maturity. The City is in compliance with this requirement.

Arbitrage provisions of the Internal Revenue Tax Act of 1986 require the City to rebate excess arbitrage earnings from bond proceeds to the federal government. The City has determined that it has not earned interest on bond proceeds in excess of arbitrage amounts and, consequently, has not accrued an "arbitrage liability" to the federal government.

General Obligation Bonds

At April 30, 2012, bonds payable consisted of the following individual issues:

\$1,552,000 General Obligation Refunding Bonds, Series 2010, dated May 1, 2010, due in annual installments ranging from \$50,000 to \$382,000 through 2020, with interest from 2.25% to 3.60%, payable April 15 and October 15.

\$ 575,000

\$5,000,000 General Obligation Corporate Purpose Bonds (Hotel/Motel Tax Supported) Series 1996, dated September 15, 1996, due in annual installments ranging from \$50,000 to \$230,000 through 2016, with interest from 5.05% to 8.00%, payable September 1 and March 1.

1,000,000

\$9,530,000 General Obligation Refunding Bonds, Series 2005, dated November 22, 2005, due in annual installments ranging from \$30,000 to \$1,320,000 through 2020, with interest from 3.0% to 4.0%, payable April 15 and October 15.

8,880,000

\$6,596,818.30 (\$7,290,000 Compounded Accreted Value at Maturity) General Obligation Capital Appreciation Bonds, Series 2009A, dated September 21, 2009,with principal and interest of \$4,970,000 due on December 1, 2012, and principal and interest of \$2,320,000 due on December 1, 2015, with interest from 2.0% to 3.0%

1,087,529

\$1,245,000 General Obligation Bonds, Series 2009B, dated September 21, 2009, due in annual installments ranging from \$185,000 to \$225,000 beginning 2018 through 2023, with interest from 3.0% to 4.0%, payable January 1 and July 1.

1,245,000

\$5,533,000 Taxable General Obligation Bonds, Series 2009C (Recovery Zone Economic Development Bonds (Direct Payment)), dated November 20, 2009, due in annual installments ranging from \$58,000 through \$420,000 through 2029, with interest from 2.2% to 6.1%, payable January 1 and July 1. Total

5,400,000 \$ 18,187,529

Less: Current portion of bonds payable Net Long-Term Bonds Payable

(1,240,000) \$ 16,947,529

On September 26, 1996, the City issued Corporate Purpose Bonds in the amount of \$2,400,000 to finance the construction of the Oakley-Lindsay Center. The 1996 General Obligation Bonds are to be repaid by revenues generated by the City Hotel/Motel tax.

On November 15, 2005, the City issued \$9,530,000 in General Obligation Bonds with an average interest rate of 3.5% to advance refund \$9,420,000 of outstanding 1998, 1999 and 2000 Series bonds. The net proceeds of \$9,494,494 (after payment of \$35,506 in underwriting fees, insurance and other issuance costs) were used to purchase U.S. Government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 1998, 1999 and 2000 Series bonds. As a result, the 1998, 1999 and 2000 Series bonds are considered to be defeased and the liability for those bonds has been removed from the government-wide statement of net assets. The City completed the advance refunding to reduce its total debt service payments over the next 13 years by \$841,923 and to obtain an economic gain of \$676,286.

General Obligation Bonds (Continued)

On September 15, 2009, the City issued additional General Obligation Bonds in the amount of \$1,245,000 to finance extensions and improvements for the Oakley-Lindsay Center.

On September 21, 2009, the City issued General Obligation Capital Appreciation Bonds in the amount of \$6,596,818.30 with a compounded accreted value of \$7,290,000. The bond proceeds are being used for engineering, design and other preliminary work for a regional hydro-electric plant and lock and dam facilities. These bonds do not pay semiannual interest. Instead the Compounded Accreted Value will accrue from the date of delivery and compound on June 1 and December 1 each year at the per annum rate. This Compounded Accreted Value will be payable in two installments: \$4,970,000 on December 1, 2011 and \$2,320,000 on December 1, 2015. During the year ended April 30, 2012, the City used the unused proceeds from this bond along with City funds to partially repay this bond in the amount of \$5,813,105 including the accumulated accretion. The accretion for the remaining bond balance due for the year ended April 30, 2012, is \$38,998 and the accumulated accretion is included in the government-wide statement of net assets.

The City issued Taxable General Obligation Bonds, or Recovery Zone Economic Development Bonds, on November 20, 2009, in the amount of \$5,533,000. These bonds are also referred to as Build America Bonds. Under the American Recovery and Reinvestment Act of 2009 (ARRA) state and local governments were allowed to issue taxable governmental bonds with a federal subsidy for a portion of the borrowing costs equal to 45 percent of the total coupon interest payable to investors. The proceeds of these bonds are being used to fund the acquisition, construction and installation of Quincy Public Library facilities and improvements.

On May 1, 2010, the City issued \$1,552,000 in 2010 General Obligation Refunding Bonds to advance refund the Series 1999 Bonds. The net proceeds of \$1,533,133 (after payment of \$18,867 in issuance costs) were deposited with an escrow agent to provide for future debt service payments on the 1999 Series bonds. As a result, the 1999 Series bonds are considered to be defeased and the liability for those bonds has been removed from the government-wide statement of net assets. This refinancing is expected to produce an overall cash flow savings of \$52,759 over the ten years following the refunding and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$69,926.

In prior years, the City issued refunding bonds to defease certain outstanding bonds for the purpose of consolidation and to achieve debt service savings. The City has placed the proceeds from the refunding issues in irrevocable escrow accounts with a trust agent to insure payment of debt service on the refunded bonds.

Accordingly, the trust account's assets and liabilities for the defeased bonds are not included in the City's financial statements. Although defeased, the unfunded debt from these earlier issues will not be actually retired until the call dates come due or until maturity if they are not callable issues. On April 30, 2012, \$14,719,980 of outstanding bonds is considered defeased.

Interest expense from these bonds totaling \$1,079,459 has been included as a direct function expense. No interest was required to be capitalized during the year ended April 30, 2012.

As a home-rule maturity, the City has no legal debt limit.

General Obligation Bonds (Concluded)

The annual aggregate maturities of General Obligation bonded debt for subsequent years are as follows:

Year Ending April 30	Principal	Interest	Total
2013	\$ 1,240,000	\$ 779,645	\$ 2,019,645
2014	1,365,000	716,881	2,081,881
2015	1,460,000	649,838	2,109,838
2016	2,642,529	966,779	3,609,308

2028-2029	950,000	 83,305	 1,033,305
	\$ 18,187,529	\$ 5,944,213	\$ 24,131,742

Notes Payable - Bank

The City entered into a loan agreement with the State of Illinois Environmental Agency on June 30, 1992, to provide financial assistance for Phase I of the South Quincy Sewer project. The agreement provides for a loan of \$1,200,000 with an interest rate of 3.58%, payable over a term of twenty years. As of April 30, 2012, the City has borrowed \$1,196,841, of which \$83,730 was outstanding at April 30, 2012.

The City entered into a loan agreement with Bank of America in July 2007 to provide financing for City Hall heating and air conditioning upgrades. The agreement calls for the City to make 180 monthly payments of \$9,889 each. The interest rate is fixed at 4.47% for the life of the loan. The balance outstanding at April 30, 2012, was \$974,197.

On November 30, 2009, the City entered into a loan agreement with Bank of Springfield in the amount of \$336,428.26 to refinance loans with First Bankers Trust Company (for a pump truck for the Fire Department) and Associated Bank (for an Airport Hangar building). This agreement calls for 66 monthly payments of \$5,527 each at a fixed interest rate of 2.94%. The balance outstanding at April 30, 2012, was \$92,212.

On November 20, 2009, the City entered into a loan agreement with Bank of Springfield in the amount of \$729,172 to provide financing to purchase fire equipment. The agreement calls for 72 monthly payments of \$11,049 each at a fixed interest rate of 2.91%. The balance outstanding at April 30, 2012, was \$450,355.

The City entered into a loan agreement with the Illinois Finance Authority for the Fire Truck Revolving Loan Program on April 7, 2009. This program allows the Authority to make no interest loans to fire departments for the purpose of purchasing fire trucks and related equipment. This loan calls for 20 annual payments of \$12,500 each beginning November 1, 2011 and ending November 1, 2029. The balance outstanding at April 30, 2012, was \$225,000.

The City acquired a piece of land from Quincy University in May 2005 for use as the Firefighters Regional Training Center. The City also received a lease agreement for the use of land at the site from the University for \$1 per year for 20 years. The land was valued at \$250,000 and the lease was valued at \$250,000. The City has an economic development loan due from the University for \$500,000 that was converted to the Firefighters Regional Training Center. The \$500,000 is to be repaid in 7 annual payments of \$50,000 at 0% interest with a balloon payment of \$150,000. The balance outstanding at April 30, 2012, was \$300,000.

Notes Payable - Bank (Concluded)

On November 18, 2011, the City entered into a loan agreement with Bank of Springfield in the amount of \$180,000 for the purchase of an airport hangar. This agreement calls for 23 monthly payments of \$7,664.96 each with an irregular last payment of \$7,664.97 at a fixed interest rate of 2.1%. The balance outstanding at April 30, 2012, was \$143,114.

The annual requirements to amortize the outstanding loans as of April 30, 2012, are as follows:

Governmental Activities

Year Ending			
April 30	 Principal	 Interest	 Total
2013	\$ 238,501	\$ 55,843	\$ 294,344

Total Notes Payable	\$ 2,268,608	\$ 276,565	\$ 2,545,173

Compensated Absences

Accumulated unpaid vacation pay, sick pay and compensatory time are accrued as the liability is incurred. The amount of the liability is determined by calculating each employee's accumulated number of vacation, sick leave and/or compensatory hours at their rate of pay on April 30, 2012.

A summary of the liability for compensated absences by function at April 30, 2012, follows:

		Sick Leave	V	acation	Comp Time	Total	Current Portion
Governmental activitie	s:						
General government	\$	103,683	\$	56,724	\$ -	\$ 160,407	\$ 60,329

Absences	\$	2,203,041	\$	932,121	\$ 477,457	\$ 3,612,619	\$ 1,549,807

Other Non-current Liabilities

As stated above, the City issued General Obligation Capital Appreciation Bonds in the amount of \$6,596,818.30 with a compounded accreted value of \$7,290,000. The Compounded Accreted Value will accrue from the date of delivery and compound on June 1 and December 1 each year at the per annum rate. The accumulated accretion on these bonds at April 30, 2012, is \$38,998.

Accrued interest on bonds is comprised of the following:

	t Interest ment Due	Accrued Interest April 30, 2012		
GOCP 1996	\$ 28,750	\$	9,583	
GOB 2009B	22,108		14,739	
GOB 2009C	 146,706		97,804	
	\$ 197,564	\$	122,126	

Other Non-current Liabilities (Concluded)

On May 13, 1996, a consent order judgment was entered against the City and other co-defendants in a lawsuit brought by the State of Illinois Environmental Protection Agency resulting from the City's Landfill #5. State and federal laws and regulations require the City to perform certain maintenance and monitoring functions at the landfill site for 30 years. \$2,705,000 has been accrued as a landfill post-closure liability at April 30, 2012, representing the estimated remaining current cost of all post-closure care. However, due to changes in technology, laws or regulations, these costs may change in the future.

Deferred property taxes are explained below in Note 6.

The City currently maintains three defined benefit pension plans for its employees as explained later in these notes to financial statements. In accordance with Government Accounting Standards Board (GASB) Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as amended by GASB Statement No. 50, Pension Disclosures, the City is required to report a liability if the City did not make contributions equal to or more than the Annual Required Contribution (ARC) as calculated by the actuary. For the year ended April 30, 2012, the City had accumulated a liability of \$438,441.

In accordance with Government Accounting Standards Board (GASB) Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, the City is required to account for a liability for postemployment benefits owed to retirees and beneficiaries. While the City does not pay for continued health insurance coverage, they do allow retirees and beneficiaries to remain on the City's health plan. This creates an implicit rate subsidy because typically the costs for medical insurance for retirees are higher than for active employees. The City is required to report a liability if the City did not make contributions equal to or more than the Annual Required Contribution (ARC) as calculated by the actuary. For the year ended April 30, 2012, the City had accumulated a liability of \$149,738.

6) Property Taxes

Property taxes are levied prior to December 31 on the equalized assessed value as of the prior January 1 for all real estate located within the City. Equalized assessed value is equal to one-third of the appraised fair value of the real estate, less applicable exemptions authorized by the City Council and/or the State of Illinois.

Taxes are payable in two installments on July 1 and September 1 of the year following the levy (July 1 and September 1, 2011 for the 2010 levy). An asset for property taxes receivable is recorded when an unenforceable legal claim arises. At that point, the City has an enforceable legal claim, even though actual payment is not required until a later date. Property taxes of \$1,522,039 in the Governmental activities and \$3,575,686 in the Pension Trust funds, levied for 2011, have been recorded as deferred income because they are generally not available to pay liabilities of the current period. Such deferred revenues are budgeted and recognized in the year of collection. Current tax collections for the year ended April 30, 2012, were 100% of the 2010 tax levy.

7) Pension Plans

Illinois Municipal Retirement Fund (IMRF)

Plan Description

The City of Quincy's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases and death benefits to plan members and beneficiaries. The employer plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained online at www.imrf.org.

Funding Policy

As set by statute, the employer regular plan members are required to contribute 4.5 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer contribution rate for calendar 2011 used by the employer was 9.71 percent of annual covered payroll. The employer annual required contribution rate for calendar year 2011 was 10.97 percent. The City also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefit rate is set by statute.

Annual Pension Cost

For the fiscal year ended April 30, 2012, the City's actual contributions for pension cost for the regular plan was \$1,121,543. Its required contribution for the fiscal year ended April 30, 2012 was \$1,217,565.

Trend Information

Fiscal Year	Annua Pensio		•	Net Pension
Ended	Cost (AF	C) Contribu	ted (Obligation
4/30/20	12 \$ 1,217,5	565 74%	\$	438,441
4/30/20	1,192,8	845 80%		342,418
4/30/20	10 430,3	344 76%		102,763

The required contribution for FY2012 was determined as part of the December 31, 2009 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2009, included (a) 7.5% investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 4.0% per year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10.0% per year depending on age and service, attributable to seniority/merit, and (d) post-retirement benefit increases of 3% annually. The actuarial value of the employer regular plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of the assets. The employer regular plan's unfunded actuarial accrued liability at December 31, 2009 is being amortized as a level percentage of projected payroll on an open 30 year basis.

7) Pension Plans (Continued)

Illinois Municipal Retirement Fund (IMRF) (Concluded)

Funded Status and Funding Progress

As of December 31, 2011, the most recent actuarial valuation date, the regular plan was 76.31 percent funded. The actuarial accrued liability for benefits was \$37,428,045 and the actuarial value of assets was \$28,560,122, resulting in an underfunded actuarial accrued liability (UAAL) of \$8,867,923. The covered payroll for calendar year 2011 (annual payroll of active employees covered by the plan) was \$10,486,364 and the ratio of the UAAL to the covered payroll was 85 percent.

The schedule of funding progress, presented as RSI following the notes to financial statements, presents multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Police and Firefighter's Pension Funds

The City of Quincy contributes to two single-employer defined benefit pension plans: Police Pension Fund and Firefighter's Pension Fund. Each plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments to plan members and beneficiaries. Chapter 40 of the Illinois State Statutes assigns the authority to establish and amend benefit provisions to the Illinois General Assembly. Each plan issues a publicly available financial report that includes financial statements and required supplementary information for that plan. Those reports may be obtained by writing or calling the City of Quincy, 730 Maine Street, Quincy, Illinois, 62301, (217) 228-4517.

The most recent actuary for both the Police and Firefighter's Pension plans was completed as of April 30, 2011.

Police Pension Plan

Covered employees are currently required to contribute 9.91 percent of their regular salary to the Police Pension Plan. The member rate is determined by State Statute. The City is required to contribute at an actuarially determined amount. The City's contribution is funded by property taxes and must be equal to the sum of: (a) the normal cost of the pension fund for the year involved, plus (b) the amount sufficient to bring the total assets of the pension fund up to 90% of the total actuarial liabilities of the pension fund by the end of fiscal year 2040. Administrative costs are funded by investment earnings. Contributions and benefits are recognized when due and payable. Refunds are recognized as paid.

The City's annual pension cost and net pension obligation (asset) for the plan for the year ended April 30, 2012 were as follows:

Police Pension:

Annual required contribution	\$ 1,645,799
Interest on net pension obligation(asset)	(37,347)
Adjustment to annual required contribution	20,200
Annual pension cost	\$ 1,628,652
Contributions made	(1,883,702)
Decrease in net pension obligation	\$ (255,050)
Net pension obligation (asset), beginning of year	(497,956)
Net pension obligation (asset), end of year	\$ (753,006)

7) Pension Plans (Continued)

Police and Firefighter's Pension Funds (Continued)

The annual required contribution for the year ended April 30, 2012, was determined as part of the April 30, 2011 actuarial valuation using the Projected Unit Credit method. The actuarial assumptions at April 30, 2011, included (a) 7.5% investment rate of return, (b) projected salary increases of 6.0% per year, and (c) additional cost-of-living increases of 3.0% per year. The actuarial value of the Police Pension Plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The Police Pension Plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at the April 30, 2011, valuation was 30 years.

As of April 30, 2011, the most recent actuarial valuation date, the Police Pension Plan was 58.1 percent funded. The actuarial accrued liability for benefits was \$49,345,302 and the actuarial value of assets was \$28,665,007, resulting in an unfunded actuarial accrued liability (UAAL) of \$20,680,295. The covered payroll (annual payroll of active employees covered by the plan) was \$4,612,594 and the ratio of the UAAL to covered payroll was 448.3 percent.

The schedule of funding progress, presented as RSI following the notes to financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

	I rend Information							
Fiscal	Annual	Total	% of Annual		et Pension			
Year	Pension	Employer	Pension Cost		Obligation			
Ended	Cost	Contribution	Contributed		(Asset)			
2012	\$ 1,628,652	\$1,883,702	115.7%	\$	(753,006)			
2011	1,693,857	1,721,099	101.6%		(497,956)			
2010	1,491,840	1,475,138	98.9%		(470,714)			

At April 30, 2011, the Police Pension Plan membership consisted of:

Retirees and beneficiaries receiving benefits	64
Terminated plan members entitled to but not yet receiving benefits	1
Active vested plan members	76
Total members	141

Firefighters' Pension Plan

Covered employees are currently required to contribute 9.455 percent of their regular salary to the Firefighters' Pension Plan. The member rate is determined by State Statute. The City's contribution is funded by property taxes and must be equal to the sum of: (a) the normal cost of the pension fund for the year involved, plus (b) the amount sufficient to bring the total assets of the pension fund up to 90% of the total actuarial liabilities of the pension fund by the end of fiscal year 2040. Administrative costs are funded by investment earnings. Contributions and benefits are recognized when due and payable. Refunds are recognized as paid.

7) Pension Plans (Concluded)

Police and Firefighter's Pension Funds (Concluded)

The City's annual pension cost and net pension obligation (asset) for the plan for the year ended April 30, 2012 were as follows:

Annual required contribution	\$ 2,188,006
Interest on net pension obligation(asset)	(69,720)
Adjustment to annual required contribution	37,710
Annual pension cost	\$ 2,155,996
Contributions made	(2,470,314)
Decrease in net pension obligation	\$ (314,318)
Net pension obligation (asset), beginning of year	(929,603)
Net pension obligation (asset), end of year	\$ (1,243,921)

The annual required contribution for the year ended April 30, 2012, was determined as part of the April 30, 2011 actuarial valuation using the Projected Unit Credit method. The actuarial assumptions at April 30, 2011, included (a) 7.5% investment rate of return, (b) projected salary increases of 6.0% per year, and (c) additional cost-of-living increases of 3.0% per year. The actuarial value of the Firefighters' Pension Plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The Firefighters' Pension Plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at the April 30, 2011, valuation was 30 years.

As of April 30, 2011, the most recent actuarial valuation date, the Firefighters' Pension Plan was 41.3 percent funded. The actuarial accrued liability for benefits was \$54,898,220 and the actuarial value of assets was \$22,675,748, resulting in an unfunded actuarial accrued liability (UAAL) of \$32,222,472. The covered payroll (annual payroll of active employees covered by the plan) was \$3,764,337 and the ratio of the UAAL to covered payroll was 856.0 percent.

The schedule of funding progress, presented as RSI following the notes to financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Υe	ear	Pension	Employer	Pension Cost	Obligation		
En	ded	Cost	Contribution	Contributed	(Asset)		
20)12	\$ 2,155,996	\$ 2,470,314	114.6%	\$ (1,243,921)		
20)11	2,302,958	2,347,388	101.9%	(929,603)		
20)10	2,013,480	1,931,584	95.9%	(885,173)		

At April 30, 2011, the Firefighters' Pension Plan membership consisted of:

Retirees and beneficiaries receiving benefits	64
Terminated plan members entitled to but not yet receiving benefits	-
Active vested plan members	85
Total members	149

8) Health Insurance Plan for Retired Employees

The City of Quincy provides limited health care insurance coverage for its eligible retired employees. Retirees are provided the opportunity to remain on the City's health care plan with the retiree being responsible for the premium. While the City does not pay for continued health insurance coverage, this creates an implicit rate subsidy because typically the costs for medical insurance for retirees are higher than for active employees. The City also pays the premiums for eligible disabled pensioners.

Covered employees are not required to contribute to the Plan. The City is also not required to contribute to the Plan. The City's annual OPEB cost and net OPEB obligation for the plan for the year ended April 30, 2012 were as follows:

Annual required contribution	\$ 355,670
Interest on net OPEB obligation	-
Adjustment to annual required contribution	
Annual pension cost	\$ 355,670
Contributions made	(205,932)
Increase in net OPEB obligation	\$ 149,738
Net OPEB obligation. beginning of year	-
Net OPEB obligation, end of year	\$ 149,738

The annual required contribution for the year ended April 30, 2012, was determined as part of the April 30, 2012 actuarial valuation using the Entry Age Normal Cost method. The actuarial assumptions at April 30, 2012, included (a) 4.0% investment rate of return, (b) projected salary increases of 4.0% per year, (c) health care inflation rate of 8.0% initial and 6.0% ultimate, and (d) 30% of active employees assumed to elect benefit. The actuarial value of the Plan assets was determined using market techniques. The Plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at the April 30, 2012, valuation was 30 years.

As of April 30, 2012, the most recent actuarial valuation date, the Plan was 0.0 percent funded. The actuarial accrued liability for benefits was \$6,052,208 and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$6,052,208. The covered payroll (annual payroll of active employees covered by the plan) was \$19,419,222 and the ratio of the UAAL to covered payroll was 31.2 percent.

The schedule of funding progress, presented as RSI following the notes to financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Trend Information									
Fiscal	P	Annual		Total	%	of Annual

2011		-		-		0.0%			-
2010		-		-		0.0%			-

8) Health Insurance Plan for Retired Employees (Concluded)

At April 30, 2012, the Plan membership consisted of:

Retirees and beneficiaries receiving benefits	29
Terminated plan members entitled to but not yet receiving benefits	-
Active vested plan members	248
Active nonvested plan members	129
Total members	406

9) Individual Fund Disclosures

For the year ended April 30, 2012, no major funds, for which budgets were adopted, had an excess of expenditures over budgeted amounts.

However, the City budgeted expenditures in excess of available resources (beginning fund balance and estimated revenues) in the following funds:

			, t	3udgeted	
	Beginning	Estimated	C	harges to	Budgeted
Fund Name	Balance	Revenues	Apı	oropriations	Deficit
Special Revenue Funds:					
911 System	\$ 304,674	\$1,608,847	\$	1,914,847	\$ (1,326)
Motor Fuel Tax	2,768,696	2,113,402		4,891,927	(9,829)
Town Road Tax	68,391	36,300		158,356	(53,665)
Capital Projects Funds:					
2009 Hydro Project	3,026,548	20,000		3,137,294	(90,746)
2009 OLC Capital Projects	551,377	1,300		555,585	(2,908)
2009C GO Library Project	2,160,961	15,000		2,663,597	(487,636)
Debt Service Funds:					
2004 GO Bond	201,407	100		201,800	(293)

10) Self Insurance Funds

The City has initiated a self-insured retention program (SIR) within the Internal Revenue Service Fund Type in order to satisfy potential claims. The City is self-insured with excess coverage in these areas: (a) Liabilities, Worker's Compensation and Property Damage (Self-Insurance Fund); (b) Health Insurance (Health Insurance Fund); and (c) State Unemployment Compensation (Unemployment Compensation Fund). A description and supplementary information for these funds are as follows:

Health Insurance

The City is self-insured for health insurance through a plan administered by Private Health Care Systems. Premiums are recorded as an expense in the paying fund and as income in the internal service fund. Premiums collected from employees are also recorded as income in the internal service fund. Expenditures for health care claims are treated as expenses in the internal service fund.

Unemployment Compensation

The City makes payments to the State of Illinois unemployment compensation fund on a reimbursement basis in lieu of paying an unemployment tax. The Unemployment Compensation Fund was established to collect reimbursements from other funds based on the respective claims made.

Liabilities, Worker's Compensation and Property Damage

The City participates in the Municipal Insurance Cooperative Association (MICA) for excess coverage of liability and property damage claims. The City pays an annual premium to MICA, which includes its share of excess coverage premium costs, administrative fees and contributions to the joint loss fund from which each individual city's claims are paid. The City's annual premium for the year ended April 30, 2012, was \$1,125,243. Limits of liability are as follows:

10) Self Insurance Funds (Concluded)

		Risk Le	evel		In	=xcess surance overage
Type of Coverage	_	City	Lo	oss Fund		Limits
Property Insurance	\$	1,000	\$	150,000	\$ 5	2,500,000
Third Party Liability	\$	1,000	\$	200,000	\$	9,000,000
Worker's Compensation		N/A	\$	400,000	Sta	tutory limits
Crime Coverage	\$	1,000	\$	50,000	\$	500,000

11) Internal Balances

Interfund transfers during the year ended April 30, 2012, were as follows:

		Transfers In		Transfers Out
Governmental activities:		_		<u> </u>
General Fund	\$	500,270	\$	8,048,268
State and Federal Grants Fund		-		34,909
Quincy Transit Lines		227,229		-
Capital Projects Fund		2,475,430		1,005,856
Other governmental funds		4,085,729		882,480
	\$	7,288,658	\$	9,971,513
Water Department	\$	-	\$	53,812
Sewer Department		-		53,812
Quincy Regional Airport		359,300		-
Regional Training Facility		103,550		-
Other enterprise funds		-		100,000
	\$	462,850	\$	207,624
Central Garage	\$	292,000	\$	620,130
Central Services	*	2,537,546	Ψ	-
Self Insurance		213,213		-
	\$	3,042,759	\$	620,130
Private Purpose Trust Funds:				
Sister City Commission	\$	5,000	\$	-
	\$	5,000	\$	-
	\$	10,799,267	\$	10,799,267

Interfund receivables and payables at April 30, 2012, were as follows:

Due to	_	ghborhood abilization	Total			
HUD Grant Fund	\$	145,430	\$	145,430		
Total	\$	145,430	\$	145,430		

The HUD Grant fund incurred expenses relating to a housing grant that has yet to be received. Therefore, the Neighborhood Stabilization fund was used to supplement these expenses until the grant money is received from the state. The increase in the interfund balances for the year ended April 30, 2012, was \$12,600.

12) Contingent Liabilities

The City receives State and Federal grants for specific purposes that are subject to review and audit by the respective funding agencies. Such audit could result in a request for reimbursement for expenditures disallowed under the terms and conditions of the appropriate agency. In the opinion of City Management, such disallowance, if any, will not be significant.

Various claims and lawsuits are pending against the City. In the opinion of City management, after consultation with legal counsel, the potential loss on all claims and lawsuits will not materially affect the City's financial position.

13) Segment Information Disclosure

The City maintains five Enterprise funds. The Water Department and Sewer Department provide water and wastewater treatment services, respectively, to residents of the City. The Municipal Airport fund provides for the operations and maintenance of the Quincy Municipal Airport and Baldwin Field. The Regional Training Facility fund accounts for the operation of the City's firefighter training center. The Municipal Dock Fund accounts for the operation of the City's river dock.

Key financial information as of and for the year ended April 30, 2012 for these funds is as follows:

	144.4	0	Quincy	Regional	Other	
	Water	Sanitation	Regional	Training	Enterprise	
	Department	Department	Airport	Facility	Funds	Total
Operating revenues	\$ 6,239,764	\$ 4,993,502	\$ 366,195	\$ 12,797	\$ 155,387	\$11,767,645

14) Deferred Compensation

Internal Revenue Code Section 457 Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plans are administered by AIG Valic and Nationwide Retirement Solutions, Inc. The plans, available to all full-time City employees, permit them to defer a portion of their salary until future years. This deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The assets of the plan are held in trust for the exclusive benefit of the participants and their beneficiaries. City employees deferred \$766,011 into the plans for the year ended April 30, 2012.

15) Economic Development Loans Receivable

The City, through the Community Development Commission, makes economic development loans to qualified businesses. The loans are financed through funds received from Community Development Block Grants (CDBG) and an Urban Development Action Grant (UDAG). The Commission monitors the provisions of the grant agreements and the revolving loan programs. A summary of loans outstanding at April 30, 2012, follows:

		Loans
	0	utstanding
Revolving Loan Fund	\$	1,964,678
CDBG Revolving Loan Fund		1,210,895
Business and Housing Loans		853,615
Energy Grant Loans		47,985
Total	\$	4,077,173

The City has contracted with Two Rivers Regional Council of Public Officials to administer the Housing and Urban Development (HUD) Rental Rehabilitation Loan program. The ten-year loans are made to landlords for improvements to qualifying properties. At the end of each year, 10% of the loan is forgiven if all requirements of the program are being met. Due to the nature of the loans (no repayment if all requirements are met), the amount outstanding at April 30, 2012, is not recorded in these financial statements.

16) Leases (As Lessor)

The City receives rental income from various lease agreements. Following are the largest lease agreements, with the remaining agreements being immaterial to the financial statements:

The City leases a portion of the City Hall Annex located at 706 Maine Street for use as a financial institution. The lease, dated March 12, 1992, had an original term of four years, with an option of renewal for four consecutive four-year terms. For the year ended April 30, 2012, the City received rental income for the property in the amount of \$43,259.

On April 1, 2008, the City renewed a lease with Abbott Supply, LLC for the property located at 1016 Vermont. This lease expired on March 31, 2012 and a new lease agreement was executed as of April 1, 2012. For the year ended April 30, 2012, the City received rental income in the amount of \$23,063.

The City also leases ground for communication services. This lease, dated October 21, 2011, had an original term of five years beginning no later than March 1, 2003 and renewing in four successive five-year periods thereafter. The City received \$11,028 in rental income from this property for the year ended April 30, 2012.

17) Leases (as Lessee)

The City entered into a lease agreement with the Ruth M. Waterkotte Revocable Trust for use of property used as a parking lot for the Amtrak Station. The lease is dated November 1, 2008 and ends October 31, 2013 with the option to renew for three successive renewals of five years each. The lease calls for monthly payments of \$1,585 each for the initial term of the lease with adjustments to be made with each subsequent renewal. The future minimum rentals are as follows:

Year Ending	
April 30	Total
2013	\$ 19,020
2014	 9,510
	\$ 28,530

18) Conduit Debt

From time-to-time, the City has issued industrial revenue bonds on behalf of private sector and nonprofit entities for the acquisition and construction of facilities deemed to be in the public interest. The bonds are secured by the property and revenues of those entities, and are payable solely from the resources of those entities. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the financial statements.

19) Commitments and Contingencies

Effective September 10, 2010, the City entered into a management agreement with Environmental Management Corporation (EMC) for the management of the City's wastewater facilities. This agreement has a period of five years commencing March 1, 2010 and continuing until February 28, 2015. Under this agreement, EMC will manage the wastewater facilities so that the effluent discharge meets or exceeds wastewater effluent requirements established by the Illinois Environmental Protection Agency (IEPA) and the U.S. Environmental Protection Agency (USEPA). EMC shall also manage the biosolids and lime sludge disposal program consistent with USEPA and IEPA land application requirements. The EMC Facility Manager and the Pretreatment Coordinator shall be EMC employees and EMC will be responsible for all payroll expense for such employees. All other employees supervised by these EMC employees will remain City employees and the City is responsible for the payroll expenses of those remaining employees. EMC will limit overtime expenditure for these City employees in agreed upon amounts with EMC being responsible for any overtime costs exceeding these limits. The City retains ownership of the wastewater facilities and equipment and is responsible for the cost of repairing and replacing the facilities and equipment and any required capital improvements. EMC will invoice the City monthly for all costs according to the fee schedule, which varies according to volume of sludge disposal, and any reimbursable costs that are the City's responsibility. For the vear ended April 30, 2012, the City incurred costs of \$986,048 related to this agreement. The following table depicts the future minimum fees under this agreement:

Year Ending	
April 30	Total
2013	\$ 438,826
2014	448,772
2015	381,735
	\$ 1,269,333

On August 18, 2006, the City applied to the Federal Energy Regulatory Commission (FERC) for preliminary permits for the Lock and Dam Numbers 20, 21 and 22. In December 2009, on advice of financial consultants, the City organized Mississippi River No. 21 Hydropower Company, an Illinois for profit corporation as a way to qualify the Lock and Dam 21 project for the ARRA Section 1603 grant, which provides a 30% grant funding. On February 17, 2011, a FERC hearing officer issued an order dismissing the City's LLC License application stating that the City had violated Section 7(a) of the Federal Power Act Municipal Preference Provision by forming a for profit corporation, a non-municipal entity, to help fund the hydropower project. The City requested a hearing on the dismissal order. Subsequently, FERC conducted a hearing and concurred with the hearing officer and dismissed the license application barring the City of Quincy, Great River Hydropower, LLC and Mississippi River No. 21 Hydropower Company from filing for preliminary permits or development applications for the Mississippi River Lock and Dam No. 21 for one year.

To date, the City of Quincy and its subsidiaries have incurred costs of \$5,241,521 on this project with the majority of the funding provided by a general obligation bond and a grant from the Department of Energy. Currently, this is shown as Construction in Progress and included with the capital assets on the Statement of Net Assets. No further engineering or environmental work is currently being performed on the project. On October 6, 2011, all but \$1.45 million of the general obligation bond was defeased by using remaining bond proceeds and general revenues. The City is continuing to review its options regarding licensure at Lock and Dams 24 and 25 and if the previous studies done at Lock and Dam 21 can be sold to a subsequent developer.

20) Subsequent Events

Subsequent events have been evaluated through November 9, 2012, which is the date the financial statements were available to be issued.

21) Recently Issued Pronouncements

As of April 30, 2012, the Governmental Accounting Standards Board (GASB) has issued the following statements not yet implemented by the City. The statements which might impact the City are as follows:

Statement No. 61, The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34, will be effective for the City beginning with its year ending April 30, 2014. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of Statement No. 14, The Financial Reporting Entity, and the related financial reporting requirements of Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements.

Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, will be effective for the City beginning with its year ended April 30, 2013. The objective of this Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements: (1) Financial Accounting Standards Board (FASB) Statements and Interpretations; (2) Accounting Principles Board Opinions; and (3) Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedure.

<u>Statement No. 63</u>, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, will be effective for the City beginning with its year ended April 30, 2013. The objective of this Statement is to improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position. It alleviates uncertainty about reporting those financial statement elements by providing guidance where none previously existed. This Statement amends Statement No. 34, Basic Financial Statements — and Management's Discussion and Analysis — for State and Local Government and other pronouncements by incorporating deferred outflows and inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets.

Management has not yet completed its evaluation of the impact, if any, of the provisions of these statements on its financial statements.

Required Supplementary Information

Budgetary comparison schedules are presented as Required Supplementary information (RSI) for the general fund and each major special revenue and capital projects fund that has a legally adopted annual budget. The budgetary schedules present the final amended budget for the reporting period as well as actual inflows, outflows and balances stated on the government's budgetary (cash) basis. A separate column reports the variance between the final budget and actual amounts.

The Schedules of Funding Progress for each of the City's defined benefit pension plans present information used to consistently measure the City's funded status over a ten-year period.

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable Mayor and City Council City of Quincy, Illinois

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Quincy, Illinois as of and for the year ended April 30, 2012, which collectively comprise the City of Quincy, Illinois' basic financial statements and have issued our report thereon dated November 9, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the City of Quincy, Illinois, is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the City of Quincy, Illinois' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Quincy, Illinois' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Quincy, Illinois' internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Quincy, Illinois' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* (Concluded)

We noted certain matters that we reported to management of the City of Quincy, Illinois in a separate letter dated November 9, 2012.

This report is intended solely for the information and use of management, City Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditor's Report on Compliance with Requirements
That Could Have a Direct and Material Effect on Each
Major Program and on Internal Control over Compliance
in Accordance With OMB Circular A-133

The Honorable Mayor and City Council City of Quincy, Illinois

Compliance

We have audited City of Quincy, Illinois' compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the City of Quincy, Illinois' major federal programs for the year ended April 30, 2012. The City of Quincy, Illinois' major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City of Quincy, Illinois' management. Our responsibility is to express an opinion on the City of Quincy, Illinois' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Quincy, Illinois' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the City of Quincy, Illinois' compliance with those requirements.

In our opinion, the City of Quincy, Illinois complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended April 30, 2012.

Internal Control Over Compliance

The management of the City of Quincy, Illinois is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City of Quincy, Illinois' internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Quincy, Illinois' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Independent Auditor's Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control over Compliance in Accordance With OMB Circular A-133 (Concluded)

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, City Council, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

M - Denotes Major Program

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Quincy, Illinois and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements

2. Subrecipients

The City of Quincy, Illinois did not receive federal awards on behalf of others.

3. Non-Monetary Federal Awards

Non-monetary assistance is reported in the Schedule of Expenditures of Federal Awards at the fair market value of the commodities received and disbursed. During the year ended April 30, 2012, Non-monetary federal awards were received for equipment from the Illinois Law Enforcement Alarm System totaling \$13,668.

4. Insurance

As of and for the year ended April 30, 2012, the City had no federal insurance in effect.

5. Federal Loans or Loan Guarantees

As of and for the year ended April 30, 2012, the City had no federal loans or loan guarantees.

1. Summary of Auditor's Results

- A. The auditor's report on the financial statements of the City of Quincy, Illinois was unqualified.
- B. No significant deficiencies in internal control over financial reporting disclosed during the audit of the financial statements are reported in accordance with *Government Auditing Standards*.
- C. No instances of noncompliance with laws and regulations are reported in accordance with *Government Auditing Standards*.
- D. No significant deficiencies were disclosed during the audit of internal control over major federal award programs of the City of Quincy, Illinois.
- E. The auditor's report on compliance for the major federal award programs for the City of Quincy, Illinois expresses an unqualified opinion on all major federal programs.
- F. No audit findings relative to the major federal award programs for the City of Quincy, Illinois were noted.
- G. The programs tested as major programs included the following programs:
 - Formula Grants for other than Urbanized Areas (CFDA #20.509)
 - Home Investment Partnerships Program (CFDA #14.239)
- H. The threshold for distinguishing Types A and B programs was \$300,000.
- I. The City of Quincy, Illinois qualified as a low-risk auditee.

2. Findings - Financial Statement Audit

No significant deficiencies were noted or reported during the course of the audit of the financial statements for the year ended April 30, 2012.

3. Findings and Questioned Costs – Major Federal Award Programs Audit

There were no findings or questioned costs associated with major federal award programs required to be reported under OMB Circular A-133 for the year ended April 30, 2012.

There were no prior findings or questioned costs to report.
